

Mariya Gabriel
Commissioner Innovation, Research
Culture, Education and Youth
European Commission
Rue de la Loi 200
1049 Brussels - Belgium

1 February 2021

Chère Mme la Commissaire,

First of all, we would like to thank you and your team for the organization of the meeting and your time on Friday.

We are grateful for the opportunity of the exchange and for your willingness to work further on nuclear that is, as you acknowledged, an important component of the European energy mix as a reliable dispatchable carbon-free source of electricity and power. To that extend a comprehensive and significant effort of R&D&I needs to be pursued in order to keep and even improve the benefits provided by our European Industry and Research community on the long run.

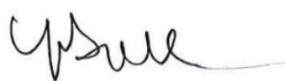

We also strongly believe in the need for further synergies to be found, supported, and encouraged with other sectors such as medicine, heat networks, digital, hydrogen and others.

We are also grateful for your proposal to organize a High-Level event to which we would be very eager to contribute. And we will be in contact with your services to that end.

We remain, of course, at your disposal for any clarification you may have of the presentation we provided on Friday.

We look forward to a continued fruitful collaboration.

Bien respectueusement et cordialement

Yves Desbazeille
FORATOM Director General

Bernard Salha
President of SNETP
