Apply to SNETP booster program – Training Track

(Before September 29th, 2023)

This program is open to any small entities (SMEs and Start-Ups) members of SNETP which are willing to have receive an approximative 2-day training program on EU R&D programs. Some of these topics might be covered by the training such as:

- The basic and advanced tips and techniques which are essential and the solid base for your future as EU project manager ;
- Practical skills to manage EU-funded projects throughout the complete project life cycle (finding a consortium, writing a proposal and submit it, consortium and grant agreement signature) ;
- Better understanding of EU structure and the funding programs ;
- Information about finance management and audits in EU projects.

This training will be provided by an external partner.

> **Please note:** you cannot register to the program if your form is not completed. Prepare all the elements and information you need before you start filling out this application form. If you have any question, contact us at booster.snetp@snetp.eu
