[Project Overview](#)

[PART A – user report template](#)

Project identification data

Provide the necessary project information in the table below.

Project title			
Project Acronym			
Type	Fast Track – Complex Project		
Institut/ Company Identification	User(s) : Infrastructure(s):		
Call area	Choose an item.		
Cluster	Choose an item.		
Infrastructure name(s)	Choose an item		
Project start date		Project end date	
Name of principal researcher			
Affiliation			
Email address			

Project content

Are the objectives as described in the technical proposal met? Describe the deviations from the original plan. (max 200 words)

List the main achievements of the experiment. Where there any difficulties? How where these difficulties handled?. (max 200 words)

List the users involved in the past project.

Name	Research status	Home institution	Use of facility	Number of visits	Total duration of visit
	Choose an item.		Choose an item.		
	Choose an item.		Choose an item.		
	Choose an item.		Choose an item.		

Evaluate the services provided the infrastructure. Take into account the arrangement of experimental and the support to setup the experiment.. (max 200 words)

Evaluate the services provided by the OFFERR consortium. Take into account the information provided by OFFERR, the evaluation process and suggestions for improvement. (max 200 words)

Project outcomes

List all present and planned scientific outcomes of the research project in the table below and indicate if the research can be used for dissemination and outreach activities (for example a webinar series).

How to make a link between this and the data module created on the call platform ?

Nb	Title	Type	Event	Date	Target group	Hyperlink
		Choose an item.		Click or tap to enter a date.		
		Choose an item.		Click or tap to enter a date.		
		Choose an item.		Click or tap to enter a date.		
		Choose an item.		Click or tap to enter a date.		
		Choose an item.		Click or tap to enter a date.		

- (Part of) the above described data can be used for dissemination and outreach activities in the framework of the OFFERR project.
- (Part of) the above described data published through the SNETP open data repositories.

Indicate which of the previously mentioned scientific outcomes could be useful for other partners/projects in the nuclear sector.

Nb	Industry utilities (including	Research institutes	Universities	Other	Specify your answer

Describe potential additional research for future actions. (Max 200 words)

PART B – infrastructure report template

Project identification data

Provide the necessary project information in the table below.

Project title			
Project acronym			
Call area	Choose an item.		
Cluster	Choose an item.		
Infrastructure name(s)	Choose an item		
Project start date		Project end date	
Infrastructure contact person			
Affiliation			
Email address			

Project content

Describe the process of the experiment. What was the duration of the experiment? Where there any difficulties during the experiment? How were these difficulties handled?. (max 200 words)

Evaluate the collaboration with the visiting researchers. (max 200 words)

Project outcomes

Describe potential additional research for future actions. Describe potential for the Scientific dissemination and Scientific exploitation. (Max 200 words)

Final payment

- Once your final report is validated from the OFFERR team, you will receive the final payment
