5.	**NGOs, International organisations**	**Fee 0 EUR**

Permanent observers **no fee**

Permanent Observers are public and private entities acting directly or indirectly in the field of nuclear fission energy R&D&I and with strong interest to follow closely the activities of the Association.
Permanent observers include:

1. Public authorities:
    a. Ministry,
    b. National agency,
    c. European body
2. Others:
    a. Standardization body,
    b. Other private entity,
    c. Other public entity,
    d. Individuals.
    e. Groupings of several independent legal entities
    f. Supranational and international organisations.

Although permanent observers do not pay any fee, they are expected to contribute in-kind to the activities of the association, for instance by disseminating the results and activities of the associations.
